BUILD CERTIFICATE AND EEC CERTIFICATES

Metal structure manufactured according to Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonised conditions for the marketing of construction products, for the Control of Production in Factory of Metal Structures for the EC Market, and the scope of which is the Design, manufacture and assembly of metal construction and structures. Follow-up and inspection is carried out by the certification body TÜV Rheinland; granting the Control of Production in Factory (CPF) conformity certificate, based on regulation UNE-EN 1090:2011+A1 Execution of steel structures and aluminium structures.

Part 1: Requirements for the assessment of conformity of structural components.

Part 2: Technical requirements for the execution of steel structures. EXC-3 2+

DESIGN THE INTERIOR

The standard module has been designed to be very bright, with a front façade that allows the elegance of its interior to be seen.

WE MAKE YOUR PROJECT TO MEASURE

The module is designed to create an attractive space for the customer at the same time as allowing optimum service provision and maintenance. A module which looks wonderful from the outside, with a large glass façade so that people can recognise your business.

FRONT VIEW | PUBLIC ZONE

SERVICE AND MAINTENANCE: AS EASY AS IT COMES.

The back part is the service zone, where we need to provide easy access to the machinery and all their accessories. How? By incorporating sliding doors.

BACK VIEW | SERVICE ZONE

Supplies input at a single point:

Cold water - hot water - electricity - gas
(to be defined in the project)

S275JR steel structure, painted with
primer coat and enamelled finish

Service floor with
OBS3, clean and
durable

Optional:
Side Compartment for
propane bottles.
(3+3 bottles)

Steam outlet
collector on roof
for all the dryers
